OBJECTIVE

Passionate and innovative Front-End Developer skilled in HTML, CSS, JavaScript, jQuery, and React. Demonstrated ability to deliver impactful solutions and streamline workflows. Eager to apply analytical prowess and problem-solving acumen to drive success for your team.

EDUCATION

Bachelor of Commerce (B.Com), Kuvempu University
CGPA: 7.86

Aug 2020 - sep 2023

SKILLS

Web Development	HTML, CSS, Bootstrap, JavaScript, jQuery
Framework	React
Programming Languages	Java
Database	SQL

EXPERIENCE

Kodnest — Internship — Java Full Stack Development [\[certificate\]](#)

At Kodnest, I delved into Java Full Stack Development, collaborating on diverse projects to enhance web applications. Responsibilities included frontend development using React, backend work with Java and Spring, database management, testing, and version control. Achievements include successful project implementations, positive feedback, and rapid acquisition of new skills.

Codsoft — Internship — web Development [\[certificate\]](#)

Applied analytical skills to real-world projects, optimizing processes and workflow. Collaborated with cross-functional teams, enhancing project outcomes through problem-solving. Fostered a collaborative work environment and actively participated in knowledge-sharing sessions.

PROJECTS

Eflyer: React-Powered E-commerce Website: Eflyer is a dynamic e-commerce platform crafted using the React framework. Leveraging APIs, it seamlessly fetches data to populate its product listings, enhancing the user experience. With its intuitive interface and responsive design, Eflyer offers a streamlined shopping experience, catering to both administrators managing product listings and customers exploring an array of offerings. [\[View Eflyer\]](#)

Todo List: Showcased a dynamic Todo list project using React, emphasizing user-friendly design, efficient state management and modular code. Demonstrates my practical application of React for creating functional and responsive web applications. [\[View Todo List\]](#)

Portfolio Website: My portfolio website is a concise representation of my skills and personality. Built with clean HTML and CSS, it reflects a commitment to excellence in a visually appealing and responsive design. Explore to discover the essence of my professional identity.

EXTRA-CURRICULAR ACTIVITIES

- Organized and led a tech-themed workshop at a local community center, educating participants web development and promoting digital literacy.
- Coordinated and hosted technology meetups within the community, facilitating knowledge exchange and networking opportunities among local tech enthusiasts.
